

## Vanishing Tracks – Protecting the Endangered Snow Leopard

The [Australian Himalayan Foundation](#) in partnership with Taronga Zoo is holding its annual dinner at the Taronga Zoo Function Centre on Thursday 6 November 2014. Guest speaker will be Dr Rodney Jackson, the leading authority on snow leopards in the wild, a panellist at the Parks World Congress.

Rodney is the Director of the [Snow Leopard Conservancy](#), our project partner in Nepal and India, and has spent a lifetime researching snow leopards in their native habitats and working with local communities and governments to save this beautiful endangered leopard. He has received the Rolex Award, been featured twice in National Geographic and nominated for the Indianapolis Award three times.

You will also have the opportunity to hear from Taronga Zookeepers during the evening. All proceeds from the event will be directed to the Foundation's Snow Leopard project in Ladakh, India.
