

Quality (and Vitality!) of Governance of Protected Areas

Governance for the Conservation of Nature & Celebrating Governance!

These “founding and grounding” consecutive events at the beginning of the Governance Stream are designed to offer keys to understand governance of protected and conserved areas and make sense of relevant policies and practice.

Are appropriate type, quality and vitality of governance essential for conserving nature and achieving the CBD Aichi Targets for Biodiversity? Come to find out! ...and discover which peoples and countries have been leading the way, around the world, in improving governance for the conservation of nature.

Join the Executive Secretary of the CBD and other outstanding speakers and be there on time for the launching of new publications and to enjoy a complimentary lunch 😊!
