

SMART

Spatial Monitoring and Reporting Tool

Improving site-based protection, ensuring accountability and promoting good governance

The SMART Partnership

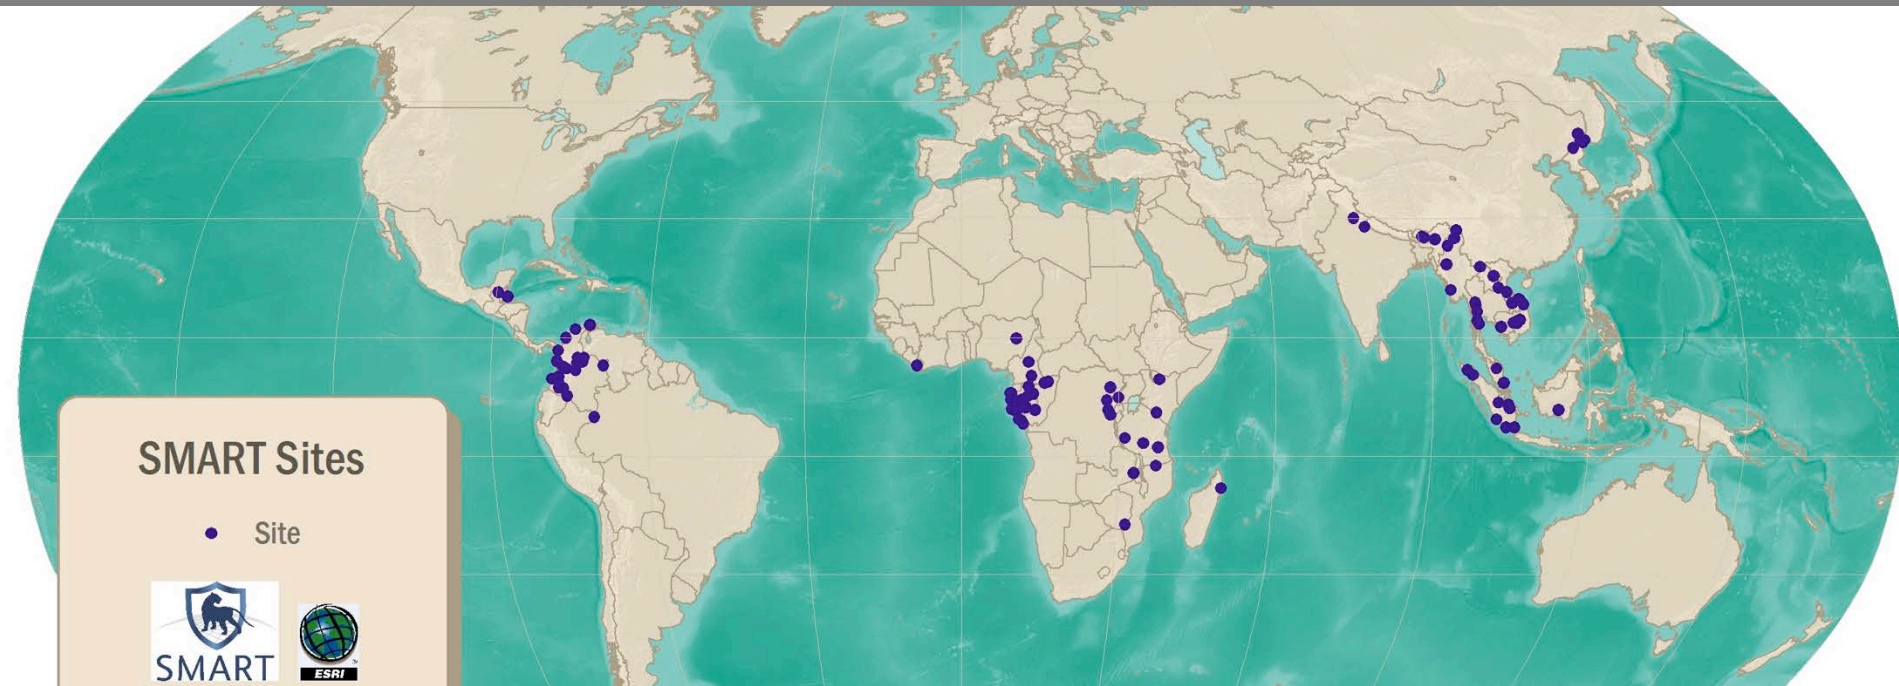

- Effective management of conservation areas delivered through global implementation of tools and standards
- Collaboration of conservation agencies sharing effort to address conservation's greatest challenges

Three-pronged Approach

Where are We Now?

SMART Sites

• Site

- New members of the Partnership
- Global rollout underway: +120 sites, 27 countries
- Engagement with global, multilateral and bilateral institutions
- Collaborations and international symposium participation
- National-level government engagement
- 10-year business and governance plan
- Global, regional, national and site workshops held across Africa, Asia and Latin America
- High functioning LEM software, translated into +9 different languages

The background of the image shows the silhouettes of several people standing in a field of tall grass and plants. The sun is low on the horizon, creating a bright orange and yellow glow that silhouettes the figures. The overall scene is a natural, outdoor setting at dusk or dawn.
