Activities

Educate & Empower

No matter how you look at it, it's worth looking at ways to protect it

NatureWatch

VNPA's 2020 goal for community monitoring:

VNPA provides and coordinates knowledge in the community to enable them to develop and carry out monitoring of nature.

NatureWatch launched in 2007

Grass Tree monitoring

Phytophthora cinnamomi
dieback

Grassland and threatened species

'Caught on Camera'

*monitoring wildlife using
motion-sensing cameras*

Team leadership
volunteers train and lead volunteers

Community training

Report back and training

Data analysis

RECONY

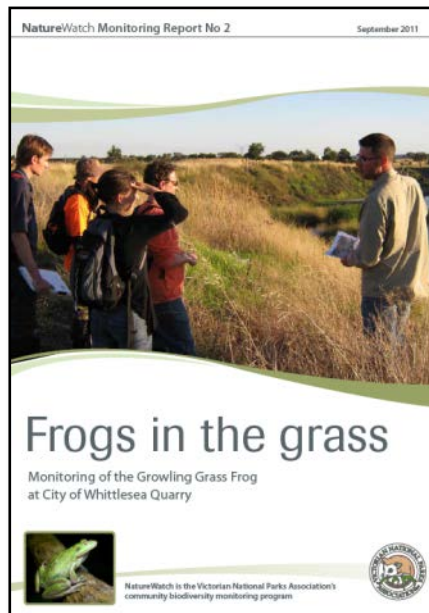

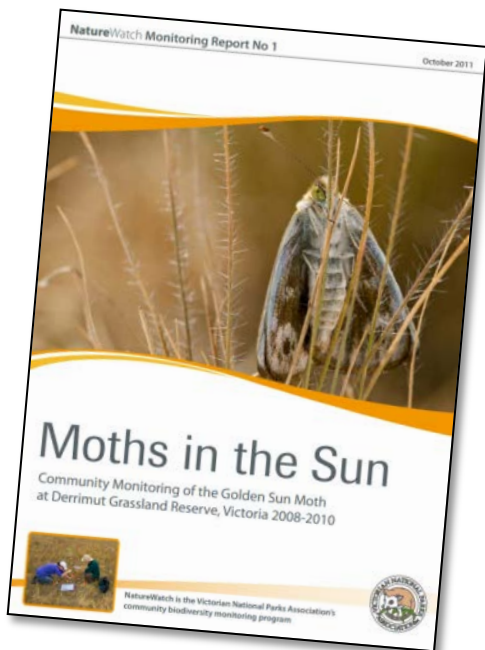

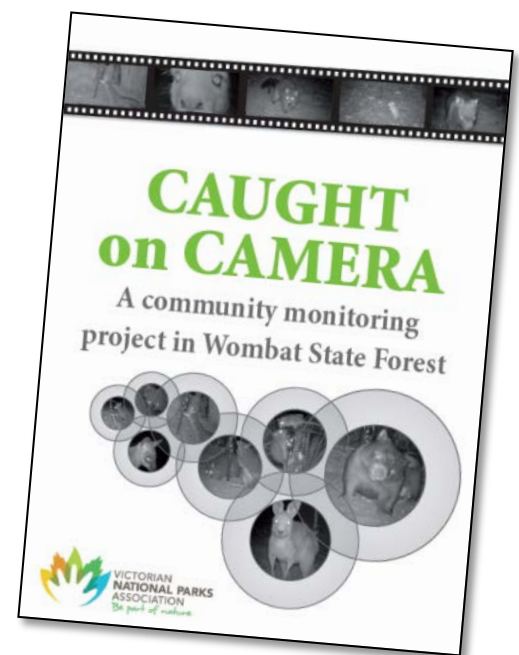

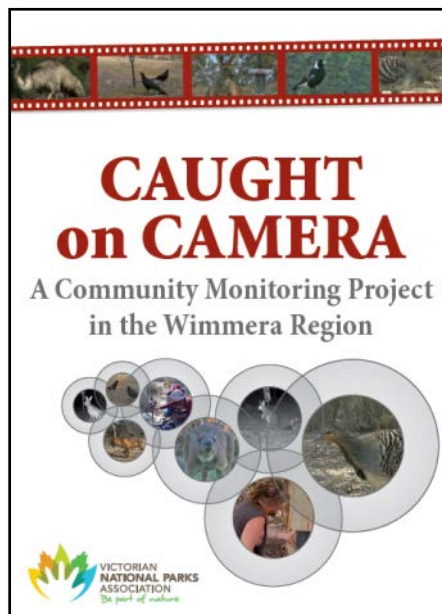

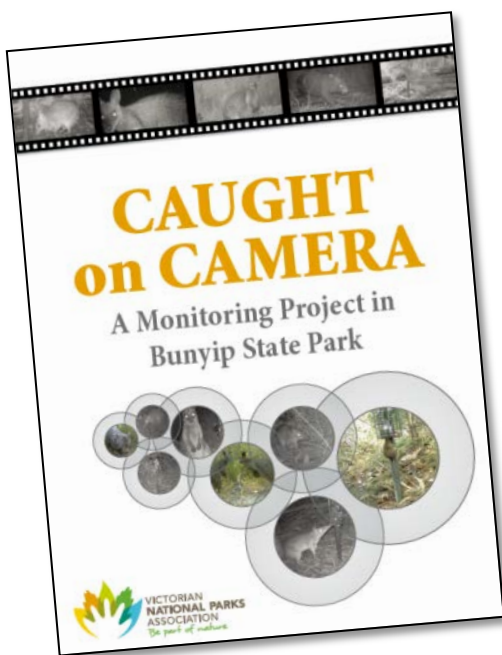

Volunteers: ID, data entry
Scientists: assist ID, analyse and report

HC500 HYPERFIRE

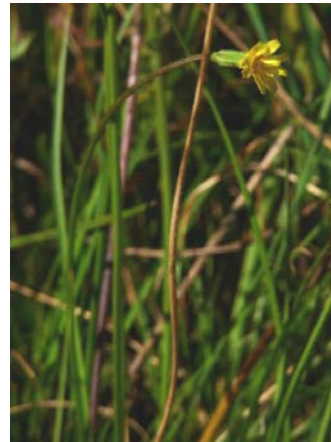

HYPERFIRE

Some exciting outcomes

- Southern Brown Bandicoots in Bunyip State Park
= Parks Victoria funding
- Brush-tailed Phascogale
- Many Plains Yam Daisies at Kalkallo Grassland
- Long term, great partnerships, community inspired!
