Governance and equity: how to achieve equitable management in Aichi 11

Workshop in Stream 6
Friday, 14 November 2014
13:30- 15:00
Dome Theatrette

Phil Franks, Barbara Lang, Maurizio Ferrari, Dilys Roe

Aichi 11

By 2020, at least 17 per cent of terrestrial and inland water, and 10 per cent of coastal and marine areas, especially areas of particular importance for biodiversity and ecosystem services, are conserved through effectively **and equitably managed**, ecologically representative and well-connected systems of protected areas and other effective area-based conservation measures, and integrated into the wider landscapes and seascapes.

Indicators for Aichi 11

Trends in coverage, condition, representativeness and effectiveness of protected areas and other area-based approaches

- Trends in coverage of protected areas
- Trends in extent of marine protected areas, coverage of key biodiversity areas and management effectiveness
- Trends in protected area condition and/or management effectiveness **including more equitable management**
- Trends in representative coverage of protected areas and other area based approaches, including sites of particular importance for biodiversity, and of terrestrial, marine and inland water systems
- Trends in the connectivity of protected areas and other area based approaches integrated into landscapes and seascapes
- *Trends in the delivery of ecosystem services **and equitable benefits** from protected areas*
