Governance Workshop 3.1
"Effective and Equitable Systems of Protected
Areas"

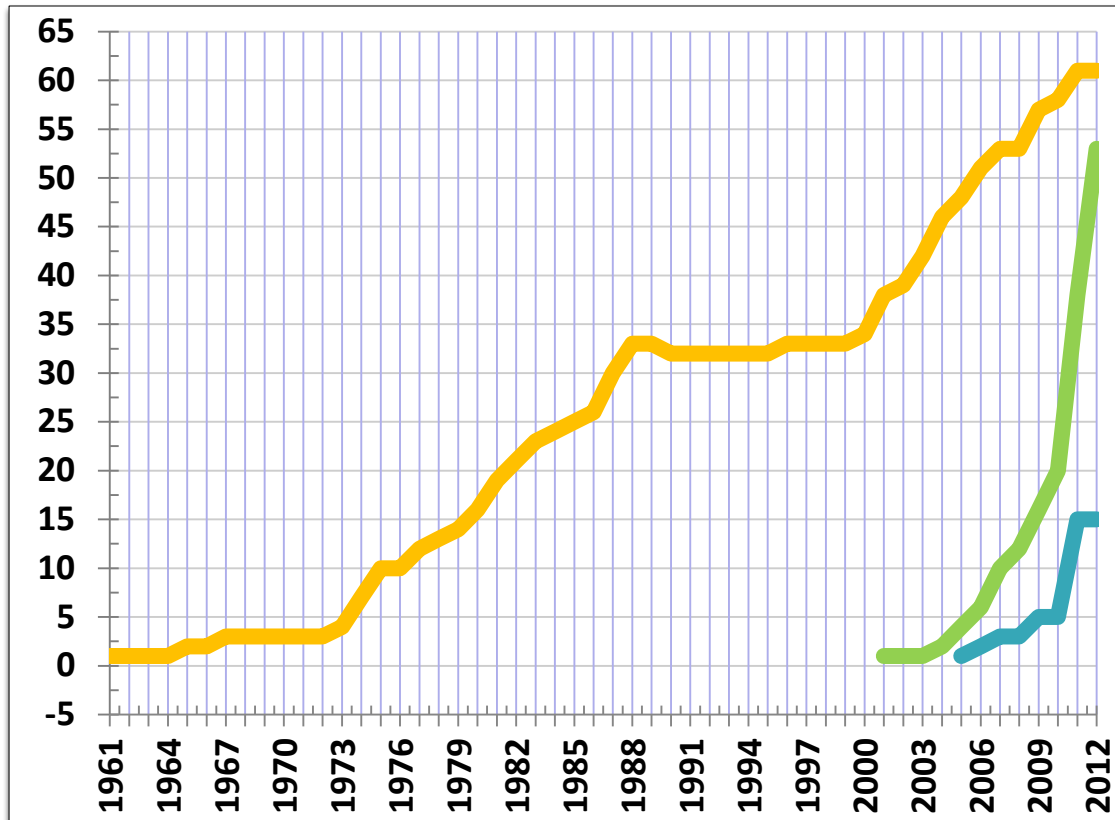

Protected Areas as an asset for national development

Alberto Paniagua
Executive Director

IUCN
WORLD PARKS CONGRESS
SYDNEY 2014

Growth of natural protected areas in Peru

- SINANPE
- PRIVATE CONSERVATION AREAS
- REGIONAL CONSERVATION AREAS

New strategic approach

Conservation of natural resources starts principally in protected areas

New approach:
Linkage of protected areas to larger scale **territorial dynamics.**

Development of
Regional Conservation Systems

Regional Conservation Systems

- Establish regional environmental authority.
- Define physical basis for conservation.
- Establish conservation modalities.
- Institutional and social support for conservation.
- Align public resources for conservation.
- Develop mechanisms to involve the private sector in conservation financing.
- Connect protected areas management plans to consensus based regional and local development plans.
- Invigorate protected areas' participatory management.
- Create innovative mechanisms to manage protected areas-

PROFONANPE

Regional Conservation Systems

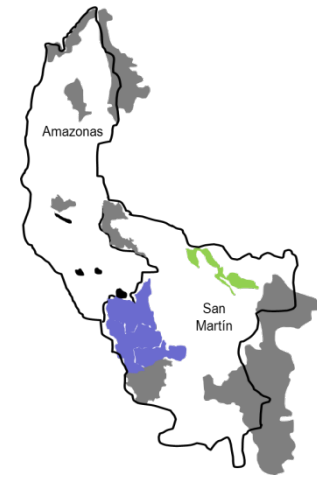

ANP

ANP + ACR

ANP + ACR + ACP

ANP + ACR + ACP + CC

ANP = Natural Protected Areas

ACR = Regional Conservation Areas

ACP = Private Conservation Areas

CC = Conservation Concessions
