

Marine Protected Areas (MPAs) as a Tool for Food Security

Organized by the Fisheries and Aquaculture Department of the Food and Agriculture Organization (FAO) and the Fisheries Expert Group of the IUCN Commission on Ecosystem Management (IUCN/CEM/FEG)

Panelists:

- Emma Doyle (Gulf and Caribbean Fisheries Institute)
 - Hugh Govan (Indo-Pacific LMMA Network)
 - John Tanzer (WWF Marine)
 - Naseegh Jaffer (World Forum of Fisher Peoples - WWFP)
 - Sabine Jessen (Canadian Parks and Wilderness Society)
 - Vivienne Solis (Coope SoliDar R.L., Costa Rica)
 - Warrick Fletcher (Department of Fisheries, Government of Western Australia)
- Moderator: Serge Garcia (IUCN/CEM/FEG)

- * What are the trade-offs between conservation and resource utilisation that need to be addressed in an MPA in order to ensure food security outcomes?
- * How should these trade-offs be addressed?
- * Who are the different stakeholders that need to be involved in MPA planning and management and how can their participation be made effective?

* **Questions**
